

## What Deep Cleaning is

---

Deep Cleaning is the level above our Regular Turnover. It includes everything in a Regular Turnover plus deeper attention to the spots that don't get touched in routine cleanings — inside cabinets, behind appliances, baseboards, ceiling fixtures, calcium and grease removal, descaling. Best after long-term guest stays, heavy use, post-construction, or as preventive maintenance every few months. The same service works for short-term rentals, residential homes, and properties being prepared for listing or sale.

**Personal items, kids' toys, bikes, gym equipment, hobby gear — all sorted and wiped too.** Anything sitting in your home gets handled, not skipped around.

## HOW WE WORK — OUR PROCESS

---

Deep Cleanings are performed by a team of two cleaners working in parallel. The on-site time matches a Regular Turnover for the same property size, but the depth of work doubles — every surface gets attention that routine cleaning skips.

- **Inspect first** — Same as Regular Turnover — defects, supplies, condition photographed before we start.
- **Work top-down** — Cobwebs and ceiling fixtures, then high surfaces and baseboards, then mid-level surfaces, then floors and rugs.
- **Deep into hidden areas** — We get into the spots routine cleanings skip — inside cabinets and drawers, behind and under appliances, fridge seals, exhaust fans, window tracks, grout.
- **Descaling & detailing** — Calcium and lime removal on shower walls and faucets. Chrome polished. Tile and grout scrubbed with descaler. Backsplash degreased.
- **Standard turnover overlay** — All Regular Turnover tasks still happen — beds made, towels replaced, supplies restocked, photo report sent.

## OUR STANDARDS

---

- **Photo Documentation** — Photos taken after every clean — bed setups, bathrooms, kitchen, picky spots, and any issues found.
- **Inspection Report** — A written report after every visit: what's worn, broken, missing, or noteworthy. You always know what's happening in your property.
- **Supply Monitoring** — We track consumables (paper, soap, coffee, batteries) and restock or alert you before they run out.
- **Caretaker Mindset** — Our cleaners are trained to think like owners, not just task workers. They protect your asset.
