Regular Turnover Cleaning

CLEAN. STYLED. SEAMLESS.

Turn Rentals Into Experiences

Regular Turnover Cleaning is our core service between guest stays — a structured, documented turnover with inspection, photo documentation, supply restocking, and a written report after every visit. **We don't clean as a vendor. We care for your property as a caretaker.** Every clean follows the standards built for your specific property during StartUp, so every detail is handled the same way, every time — by whoever is on the schedule. The cleaning team works from a custom property book with reference photos and SOPs built just for your home.

HOW WE WORK — OUR PROCESS

Every turnover follows the same documented sequence, so quality stays consistent regardless of which cleaner is on-site:

- **Inspect first** — We walk the property before touching anything — defects, damage, depleted supplies, anything out of place gets noted and photographed.
- **Work top-down** — Cobwebs from ceilings, then dust, then surfaces, then fabrics, then floors. We work the same way in every room, every time.
- **Sanitize high-touch points** — Switches, handles, locks, remotes, railings — anywhere guests touch frequently is treated with disinfectant.
- **Restock per your standards** — Coffee, tea, sugar, paper towels, soap, shampoo, toilet paper, and any other items on your supply checklist. We purchase if you don't provide.
- **Stage for arrival** — Bed setup per your reference photo. Pillows fluffed, throws folded, decor in place, welcome details set. The property is guest-ready, not just clean.
- **Final inspection + report** — A second walk-through after cleaning, then a written inspection report with photos sent to you. You always know what condition your property is in.
